

Dear Vicki and Jim,

We are really having our
 mild winter. We have had
 two days of a heavy snow-
 fall and it is still coming
 down. The kids sent their
 sleds on our corner are about
 fifty strong, sliding down both
 98th past Minnishes and down
 29th. Someone even went up
 to our carport attic and stole
 our sled. When I went up
 there before Christmas to get
 the decorations the sled was
 there. Today I went up to get
 the sled to see if some kid
 would like to use it but
 it was gone. We are going to
 have another storage room put
 on and take everything down
 from the attic. That attic is so
 interesting I hate to change
 it.

yesterday was Aunt Stella's
 birthday so we took Stella

and Harold to dinner at the Holiday Inn and had steak & lobster. We had a good time and then played a few hands of bridge at home. When we left it was snowing hard and we just barely made the 24th St. Hill but we got home O.K.

Tomorrow Stella and I are going to Ellensburg if we can get over the pass. Stella called there tonight & Bernice and Charlie weren't home and the children had no food & there was no heat. It's a terrible situation so we are going to Jim and Betty Greene to take over there.

Mary and Mike are busy at the opening of the session.

I studied Swedish all day today as I had all of December off and our class was cancelled this week on account

of the snow.

Dad I think we should sort of think of May for our trip - before it gets too hot, but when it isn't still cold. I would like to plan on April but we will let you know in plenty of time.

Morning - we aren't going to Ellensburg as the pass is too unpredictable. I am going over to Lynne Coopers instead. The snow is starting to melt now.

Love,
Mom
